

Explore ways to play with the most basic drawing tools — pens, pencils and scraps of paper — in order to develop a daily drawing habit!

Join us for an online workshop that is all about developing a drawing habit, wherever you are, with whatever you have, for whatever

time you can spare, without pressure or judgment. With lessons from one of our favorite regional artists, **Christine Obers**, you will enhance your skills and boost your creativity with daily drawing.

Every morning beginning **May 9th** and continuing for 10 days, a lesson and an easy exercise for you to work on, will arrive in your inbox. You can work at your own pace, for as long as you like, whenever you want. All you have to do is draw something!

This class is designed to be fun, free of pressure, to encourage you and support you in developing a drawing habit! No experience or special art supplies necessary. Open to anyone ages 10 and up.

Sign up with your family and friends and share the fun of art-making every day!

\$60 per person (CAC Members can get a 10% discount – email us for your member code!)
